Impressive places

## The Phantom city "Kiraku"

The port town "Kiraku" is said to have prospered in early Meiji period to the Edo era. Since there is no clear description in any documents or old maps, even now the existence is a mystery, although only gravestones remain.

Japanese Rose gregarious area (mid June to early October)

Have a relaxing ride on the sightseeing flower carriage.

Notsuke peninsula is 26 km (16 miles) long in total length, and the largest sand pit in Japan. You can see the wonders of nature like Todowara and Narawara, and the fantastic scenery of the Shallow-Boat in a fog. You must also see the natural flower garden changing its colors chasing the seasons rhythmically.
